1. About the Science week

Building on the success of five remarkable Science Week events, the Military Technological College (MTC) is proud to announce the Sixth Edition returning with an exciting new theme, elevated objectives, and for the first time an extended reach to participants from across the GCC nations. This expansion marks a significant step in fostering regional collaboration and scientific exchange.

2. Science Week Objective:

- Encourage the collaboration in innovation and knowledge exchange.
- Invite military institutions from GCC to share knowledge and innovations.
- Encourage students to present creative ideas and research.
- Inspire curiosity and interest in science and technology.

3. Event Theme and Aim:

Technology by Humans, for Humanity

This event dives into how human-centric technology values can drive sustainable development, innovation and social wellbeing key pillars of Oman Vision 2040. The theme promotes a human-centric approach to digital transformation, led by the needs of the people, ensuring that human development is at the forefront. By prioritising digital literacy, future skills and the ethical use of technology to empower individuals to harness technology for the greater good of society.

4. Why Being a Sponsor?

Enhancing brand image and social responsibility supporting this scientific event contributes to:

- Strengthening your position as pioneers in supporting innovation, education, and scientific research.
- Demonstrating your commitment to social responsibility and contributing to the development of a distinguished generation of researchers and engineers.

Engagement with the Target Audience:

The science week brings together experts, academics, researchers, and officials from both government and private sectors. It provides an opportunity to showcase your products and services to a distinguished group of specialists and stakeholders.

Building Strategic Partnerships:

- Attracting talented individuals and developing partnerships with international and local academic institutions.
- Strengthening relationships with the Military Technological College through active participation.

5. Target Audience and Participants:

- **Academics and Researchers:** University professors, postgraduate students, and researchers from global research centers.
- **Industry and Technology Specialists:** Experts from companies and industrial bodies interested in engineering technologies and innovations.
- **Undergraduate and Postgraduate Students:** A large segment of young talents with promising and creative ideas.
- **Decision-Makers:** Representatives from Government entities, funding organizations, and research project sponsors.

Participants from within and outside Oman are expected to attend, along with thousands of followers via digital platforms.
